 Gavin Nelson

GAVIN NELSON
Project Manager

Gavin will be your day-to-day contact, managing and co-ordinating your project on site to meet your requirements. His responsibilities include: the monitoring and reporting of progress to the client and design project team; implementation of BW Health, Safety and Quality standards; and the co-ordination of design, trades and CDP elements of your project. His ultimate aim is to deliver the highest quality project to the client Defect Free.

An experienced project manager, Gavin is known for being able to bring a team together and quickly highlighting and resolving any site issues. The 3 examples shown to the right demonstrate projects which, like yours, also demanded attention to detail at every stage of the project, to ensure successful delivery.
